This air freshener is extremely long lasting. Pleasingly unique, natural fragrance. Removes unpleasant odors from automobiles, boats, homes, offices and more.

USE: For reduced aroma open bag but leave in place. For maximum effect, discard bag and hang air freshener freely by string.

CAUTION: Keep away from children, pets and eyes. To prevent staining avoid contact with all surfaces.

⑥ **UTILISATION:** Pour avoir un arôme réduit, ouvrir le sac mais le laisser en place. Pour obtenir un effet maximal, jeter le sac et suspendre le désodorisant librement par la chaîne.

ATTENTION: Garder hors de la portée des enfants et des animaux de compagnie et éviter tout contact avec les yeux. Pour éviter les taches, éviter le contact avec toutes les surfaces.

⑥ **USO:** Para tener menos aroma, abra la bolsa pero no la quite. Para máximo efecto, deshágase de la bolsa y cuelgue sólo el aromatizante de un cordón.

ADVERTENCIA: Mantenga fuera del alcance de los niños, mascotas y evite el contacto con los ojos. Para evitar manchas, cuide que no haga contacto con ninguna superficie.

Why Masterlink Marketing Inc. Is a Proud Supporter of
the National Breast Cancer Foundation Inc.

The President of Masterlink Marketing Inc., Terry Campbell, has seen first hand the heartbreak that is created by Breast Cancer in his own Family i.e. His Mother, Mother in Law and Sister have all had Mastectomies'. This made Mr. Campbell aware of the need for his Seatbelt Adjuster in that The Seatbelt Adjuster is a **hand-in-glove product for Breast Cancer Survivors** as it realigns the Shoulder Strap away from the Neck and Chest area and **offers much needed comfort**. Masterlink is proud to partner with the National Breast Cancer Foundation to support their cause and has plans on adding more products to the Brand.

Masterlink Marketing is committed to [spreading information](#) and [fostering hope](#) in the fight against breast cancer.

Every two (2) minutes, a woman in the United States is diagnosed with breast cancer. There are over two million (2,000,000) women living in America with breast cancer and approximately one (1) in every eight (8) women will develop breast cancer within their lifetime. According to the American Cancer Society, breast cancer has now become the most frequently diagnosed cancer in women.

The NBCF Mission "is to save lives by increasing awareness of breast cancer through education and by providing mammograms for those in need". The NBCF provided more than 22,000 free mammograms for underinsured women in America in 2006, and the Foundation also supports cancer research, primarily through a relationship with the University of Texas M.D. Anderson Cancer Center in Houston, TX, and research programs at the Cleveland Clinic in Cleveland, OH.

This partnership will enable consumers throughout the United States to support an excellent charity while equipping themselves or a loved one with the increased comfort and safety provided by the NBCF Brand Seatbelt Adjuster.

Dear Sir/Madam:

I manufacture a product called Master Design Seatbelt Adjuster, which I have been selling mainly to Automotive Retailers and large Mail Order Catalogues for the past 17 years. The Adjusters have been designed to realign the Shoulder Strap from irritating the Neck and Chest Area.

A large majority of our market are Women and Children who rarely frequent the Automotive Department and are not aware of my Adjusters.

I have compiled a list of reasons, **why I believe the Seatbelt Adjuster should be sold in Drug Store Outlets:**

1. A major increase in Chest Operations i.e. Heart Surgeries, Pacemakers and Breast Cancer.
2. Increase in Obesity which in turn brings people to look for weight control/reduction products. They also complain about the Seatbelt not fitting them properly.
3. The Aging Population – They are just the opposite of overweight people In that they shrink thus causing the seatbelt to irritate their chest and neck areas.
4. Physiotherapy Patients – i.e. Whiplash, Work and/or Sports Injury, Automobile injury. We have sold this product to some local Drug Store Outlets and Clinics and they have sold very well.

Every two (2) minutes, a woman in the United States is diagnosed with breast cancer. There are over two million (2,000,000) women living in America with breast cancer and approximately **one (1) in every eight (8) women** will develop breast cancer within their lifetime. According to the American Cancer Society, breast cancer has now become the most frequently diagnosed cancer in women. These statistics **helped make me aware** of the need for my seatbelt adjusters which is a **hand in glove product** and will offer much needed comfort. We have now obtained a license with the National Breast Cancer Foundation and are able to offer the Adjusters under their NBCF Brand.

The following is a link to our website wherein you can view the NBCF Product as well as our additional Brands of Seatbelt Adjusters.

www.seatbeltadjuster.com

We feel that the Seatbelt Adjusters would make an excellent **impulse item** in your department, as most of the above people frequent the Pharmacy Area when purchasing their prescriptions, as they have time, while waiting, to shop around and would find the solution to their Seatbelt Irritation Problems.

Yours very truly
Terry Campbell
President

“Press Release”

Masterlink Marketing is excited to announce that they have entered into a license agreement with the **National Breast Cancer Foundation Inc. (NBCF)** which will allow Masterlink to distribute their Seatbelt Adjusters under the “**NBCF**” **Brand** and are Proud of our commitment of [spreading information](#) and [fostering hope](#) in the fight against breast cancer.

The President of Masterlink Marketing Inc. Mr. Campbell says he used to put his shoulder strap under his arm, so it would not rub his neck and chest area, when he got the idea to design the “**Seatbelt Adjuster**,” which realigns the Shoulder Strap away from your Neck and Chest area, thus eliminating irritation.

Mr. Terry Campbell has seen first hand the heartbreak that is created by Cancer in his own Family i.e. His Mother, Mother in Law and Sister have all had Mastectomies’. This made Mr. Campbell aware of the need for his Seatbelt Adjuster which is a **hand-in-glove product for Breast Cancer Survivors**; in that it **offers much needed comfort**.

Mr. Campbell is calling on the Drug Store Retail Outlets to carry the Adjusters, so when women are purchasing their medicine the **Adjuster** is easily noticed and readily available for them **in their time of need**.

Even though the adjusters have sold for many years in the Automotive Retail Chains and Large Catalogue Houses, Mr. Campbell says most females are not aware of the Seatbelt Adjuster as they do not frequent these areas. By positioning the Adjusters in the Drug Stores, will ensure that these women can purchase them in their time of need.

If you are unable to locate the Adjuster in your local Drug Store, please log on to our website: www.seatbeltadjuster.com. While you are on our site you will see the variety of products available to be purchased in Bulk for your Fundraising plans.
